

2025

City of Johns Creek

ANNUAL BUDGET

To: Honorable City Council

From: John Bradberry, Mayor

Date: September 9, 2024

Subject: Fiscal Year 2025 Budget

The FY2025 Budget continues our city's investment to propel our community forward. Revenues and expenditures are balanced at \$79,971,841.

Revenues

FY2025 Revenues are up by 1% compared to FY2024. The FY2025 Budget assumes the current millage rate of 3.646 which when considering projected growth and reassessments is anticipated to generate roughly \$1M more in revenues than the FY2024 Budget. However, the FY2025 Budget anticipates a \$2M decrease in the City's largest revenue source: Local Option Sales Tax (LOST) compared to FY2024. The decrease reflects the renegotiation of the split of LOST revenues with the County (which resulted in a smaller percentage of sales tax revenues being received by the City) and the forecast of flat (rather than increasing) sales tax revenues expected in FY2025. The other significant revenue increase of around \$1M is in interest earnings. At the direction of the Council, staff has been working with an Investment Advisor and had success in maximizing the interest earnings on investable funds which is anticipated to continue in FY2025.

Expenditures

FY2025 operational expenditures (on personnel and the day-to-day City operations) rise by 8% compared to FY2024. The growth in operational expenditures is driven by seven personnel additions for public safety offset by two deletions which reflect those positions being contracted out (to provide for building inspections) and rising healthcare costs for City employees.

Five of the new positions are in the Police Department. The two new crime suppression officers, one new criminal investigations division detective, one community-oriented police officer, and one new intelligence officer were all outlined in the Police Department Multi-Year Plan presented in the spring of 2024. The final two positions are in Municipal Court for the insourcing of probation services which is anticipated to improve customer service and reduce recidivism.

In terms of healthcare costs, premiums have increased significantly which is indicative of both general industry increases as well as our claims history specific to the City of Johns Creek. In terms of financial impact, the projected rise in healthcare costs is an increase of \$1.4M over FY2024 to provide the same health insurance coverage for City employees.

Capital Projects

Despite the flat sales tax revenues and rising operational costs, the FY2025 Budget still provides for significant capital investments to further improve our community based on the strategic priorities of the City Council. In May 2024, the City Council adopted a Capital Improvement Plan (CIP) to set the priorities for capital investments over the next five years. The City Council unanimously supported the construction of the replacement Fire Station #63 / Police South Substation as the top priority. The City Council also reached a consensus that any FY2024 surplus would go to this top priority and adjusted the Budget Policy (in June 2024) to allow for the use of previously collected funds in the Property Tax Millage Rate Stabilization (PTMRS) Fund to be used for capital projects. Between the funds allocated in FY2024, the known FY2024 surplus, the \$1M balance of the PTMRS, and the remaining \$7.7M needed to fully fund construction are allocated in the proposed FY2025 Budget. Additionally, the FY2025 Budget provides for the five new vehicles needed for each of the new police department positions (which is the second-highest prioritized project in the Capital Improvement Plan).

Additionally, the FY2025 Budget continues investments in our park facilities. As outlined in the Recreation and Parks Master Plan (adopted in 2023), prioritized projects for 2025 (funded in the FY2025 Budget) include expansion of the parking at Cauley Creek Park (adjacent to the courts area), Autrey Mill Nature Preserve animal habitat relocation; Ocee Park replacement of the baseball field quad lighting, Ocee Park common area renovations for improved surface durability; Shakerag Park nature trail walking surface improvements; and Cauley Creek Park, Ocee Park, and Shakerag Park wayfinding signage.

Transportation Projects

The FY2025 Budget also continues the more than 26 projects that are at various stages of development presently being funded by the Transportation Special Purpose Local Option Sales Tax (TSPLOST). A few projects in construction in FY2025 include Jones Bridge Road widening (Waters to State Bridge), Jones Bridge Road at Sargent/Douglas intersection improvement, and Abbots Bridge Road (Parsons to Primrose Parkway) project which addresses safety, improves traffic flow, adds sidewalks and turn lanes for neighborhood access.

Equipment and Vehicles

The FY2025 Budget continues to set aside for the replacement of essential equipment and vehicles. The fourteen public safety vehicles scheduled for replacement in FY2025 are provided for by the proposed FY2025 Budget. Additionally, just over \$1.5M of essential equipment used by police, fire, and the information technology used across all City departments are provided for by the FY2025 Budget.

Summary

Overall, the FY2025 Budget is aligned with the City Council's strategic priorities. While the FY2025 Budget continues to advance all of our strategic priorities, the most significant areas of focus – as seen in the personnel additions and highlighted capital projects are in public safety and recreation and parks.

The FY2025 Budget was presented as part of Work Session on July 8, 2024 and then posted online and available at City Hall for review. The FY2025 Budget includes both summary and detail information for each operating department and fund. Discussion to finalize the details of the FY2025 Budget took place as part of the Work Sessions on July 29 and August 19. The 1st Public Hearing took place as part of the July 29 Council Meeting and the 2nd Public Hearing is scheduled for September 9. After incorporating any changes supported by a majority of the City Council, the final FY2025 Budget is anticipated to be adopted as part of the September 9, 2024 Council Meeting.

Revenue Detail: Local Option Sales Tax

\$ 27,500,000 of \$ 78,687,908
34.9% of Projected Revenues

Purpose

Local Option Sales Tax (LOST) is intended to be used to assist funding services provided including police and fire protection, streets, roads, parks, and recreational programs. In short, LOST revenues expand the total revenues available to the City to pay for services that would otherwise be paid for out of property taxes.

Mechanics

A one percent (1%) sales and use tax is charged within Fulton County and collected by the State Revenue Commissioner. The collected funds are distributed to the cities and counties, on a monthly basis, in accordance with the formula in the Certificate of Distribution.

Current Rate

The City receives 7.3493% of the one percent sales and use tax collected in Fulton County. The distribution percentage is a negotiated amount (approved by Council in Resolution 2022-11-33 in November 2022).

Projection

The FY2025 revenue projection reflects a decrease of -6.8% from the FY2024 budgeted revenues and is based on a review of historical actuals and projected total receipts for FY2024.

Of note, the 2023 renegotiation of the split of LOST revenues with the County resulted in a smaller percentage of sales tax revenues collected being received by the City. Additionally, rather than continued significant growth in overall sales tax revenue (experienced in FY2022 and FY2023), the overall amount of sales tax revenues experienced modest growth in FY2024 and is forecast to be flat in FY2025.

Local Option Sales Tax

Revenue Detail: Real and Personal Property Tax

Including Current and Prior Year

\$ 23,376,008 of \$ 78,687,908

29.7% of Projected Revenues

Purpose

Real and Personal Property Tax is for the purpose of generating revenues to defray the costs of operating the City, provide governmental services, repay principal and interest on general obligation bonds, and for any other public purpose as determined by the City Council in its discretion.

Mechanics

Each year the City Council establishes a millage rate for the City property tax. The millage rate is capped by the Charter at 4.731 unless a higher millage rate is recommended by resolution of the City Council and subsequently approved by a majority of the qualified voters of the City voting in a referendum.

Current Rate

The 2024 millage rate was set at the July 29, 2024 Council Meeting. The 2024 millage rate is 3.646 mills or \$3.646 for every \$1,000 of net assessed value. When forecasting property tax revenue for FY2025, a millage rate of 3.646 mills was utilized. The actual FY2025 rate will be set in the summer of 2025 once the Tax Digest is received from Fulton County.

Projection

The revenue projection FY2025 is a 4.6% increase compared to FY2024 budgeted numbers and assumes a millage rate of 3.646 mills.

FY2024 revenues have not yet been received (anticipated to be collected in October and November 2024) and are impacted by three factors - the millage rate, the timing of billing, and the percentage of collections. The Council sets the millage rate in the summer (after the digest is received from Fulton County). Fulton County anticipates the billing of the FY2024 taxes will be completed in August 2024, so 97% of revenues should be received within a time period that will be recognized for FY2024. Finally, FY2024 collections could be impacted by appeals. Based on historical trends, collections are anticipated at 97% of the billed taxes. The graph below reflects FY2024 revenue in the annualized amount including \$1.0M in revenue from prior year appeals that have now been settled.

FY2025 revenues will be impacted by the three factors (the millage rate, percentage received in the fiscal year, percentage of collections) and changes in the 2025 Tax Digest (growth and reassessment). For the purpose of projecting FY2025 collections (to be received in October and November 2025), staff has made the following assumptions. First a millage rate of \$3.646 per \$1,000 of taxable value has been assumed. Additional assumptions include, on-time billing by Fulton County (3% of FY2024 property taxes and 97% of FY2025 property taxes will be collected in FY2025) and collections are anticipated at 97% of billed taxes (based on historical collection rates). Finally, staff has assumed Council will capture the 2025 Tax Digest growth from reassessments and new construction and \$200M growth to the tax digest.

Revenue Detail: Insurance Premium Tax

\$ 7,400,000 of \$ 78,687,908
9.4% of Projected Revenues

Purpose

The Insurance Premium Tax is levied on gross direct premiums on life, accident, and sickness insurance policies written on persons residing within the boundaries of the City, and other types of insurance policies written by all companies doing business in the State of Georgia.

Mechanics

Insurance Premium Taxes are collected by the Georgia Commissioner of Insurance and distributed to municipalities based on premiums allocated on a population ratio formula (the population of Johns Creek divided by the population of all other municipalities in Georgia). The tax is distributed in a lump sum payment each fall.

Current Rates

The current rates are one percent (1%) on gross direct premiums for life, accident, and sickness policies, and two and a half percent (2.5%) on gross premiums of all other types of insurance.

Projection

The FY2025 revenue projection reflects an increase of 8.8% over the FY2024 budgeted revenues and is based on a review of historical actuals and projected total receipts for FY2024.

Revenue Detail: Motor Vehicle TAVT

\$ 3,250,000 of \$ 78,687,908
4.1% of Projected Revenues

Purpose

Motor vehicles titled in Georgia are subject to a one-time 7% TAVT and are exempt from Sales Tax and Annual Ad Valorem Tax.

Mechanics

The 7% Tax is collected by Georgia Department of Revenue (GDOR). GDOR retains 35% and distributes the remaining 65% to Fulton County based on sales within that part of the county. Fulton County then distributes the funds to government entities within Fulton County based on location of the buyer. MARTA first receives a fixed amount drawn prorata from all Fulton County collections. The remaining amount is distributed between Fulton County School District (49%), Fulton County (28%) and the City of Johns Creek (23%)

Motor Vehicle
TAVT 4.1%

Current Rate

The current TAVT Rate is 7% of the vehicles fair market value at the time of purchase.

Projection

The FY2025 revenue projection reflects a -18.8% decrease over the FY2024 budgeted revenues and is based on a review of historical actuals and projected total receipts for FY2024.

Revenue Detail: Interest Earnings

\$ 2,834,000 of \$ 78,687,908
3.6% of Projected Revenues

Purpose

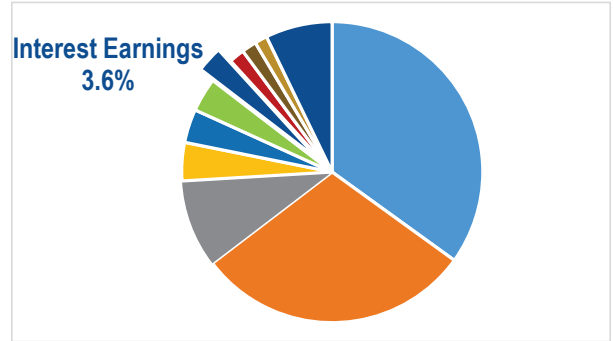

Interest earnings are generated from the City's investable cash balance.

Mechanics

Interest is paid monthly to the City from funds on deposit at various financial institutions.

Current Rate

The current rate for all of our financial investments are detailed in a Quarterly Investment Report. As of June 30, 2024, interest earning rates ranged from 1.00% - 5.40% amongst four financial institutions.

Projection

The FY2025 revenue projection reflects a 66.7% increase over the FY2024 budgeted revenues and is based on a review of historical actuals and projected total receipts for FY2024. Working with an Investment Advisor, the City will seek to maximize the interest earnings on investable funds while maintaining focus on safety of principal and sufficient liquidity to meet the needs of the City, while attaining a market rate of return throughout budgetary and economic cycles.

Revenue Detail: Electric Franchise Fees

\$ 2,850,000 of \$ 78,687,908
3.6% of Projected Revenues

Purpose

Franchise fees are implemented as part of a service agreement executed between the City and a utility company that grants the company usage of the City's right-of-way. The fees are intended to reimburse the City for the use and maintenance of the right-of-way. Traditionally, the fees are also viewed as compensation for the awarding by local governments of exclusive rights to specific public utility companies to provide service in specific areas.

Mechanics

The City currently collects electric franchise fees from two electricity providers: Georgia Power and Sawnee EMC. Georgia Power remits its payments annually, while Sawnee remits its payments quarterly.

Current Rate

The current electric franchise fee rate is four percent (4%) of total electricity sales receipts.

Projection

The FY2025 revenue projection reflects a -5% decrease over the FY2024 budgeted revenues and is based on a review of historical actuals and projected total receipts for FY2024.

Revenue Detail: Business & Occupation Tax

\$ 2,200,000 of \$ 78,687,908
2.8% of Projected Revenues

Purpose

Business and Occupation Taxes are taxes imposed on businesses located within the City for the purpose of generating revenue for the provision of local government services.

Mechanics

The current adopted fee schedule for business and occupation taxes utilizes a combination of profitability ratios, gross receipts, and number of employees to reach a final tax number. Businesses must pay their occupation taxes annually by March 31 and state law mandates that the occupation tax for a new business be paid within thirty (30) days of commencing the business.

Current Rate

The current rate establishes twenty four (24) profitability ratio tiers based on NAIC (North American Industry Classification) codes with corresponding tax rates, ranging from \$0.50 to \$2.20 per thousand dollars gross revenue. The tax rate increases based on the profitability of the business. An additional \$13 per employee tax and a \$75 administrative fee is included in the final taxes due. Professional practitioners, as identified by state law, may choose to pay a \$400 flat rate in lieu of the gross receipt/profitability ratio classification.

Projection

The FY2025 revenue projection reflects a 10% increase over the FY2024 budgeted revenues and is based on a review of historical actuals and projected total receipts for FY2024.

Revenue Detail: Municipal Court Fees

\$ 1,322,000 of \$ 78,687,908
1.7% of Projected Revenues

Purpose

Municipal Court Fees are payments to the Court for citations issued for traffic and municipal ordinance violations.

Mechanics

Municipal Court sentences require specific payments for violations of traffic laws and municipal ordinances as deterrence for offenses committed within the City's jurisdiction.

Current Rate

Fines issued by the Municipal Court reflect consistent fee amounts with the standardized maximum amount varying according to violation and statute.

Projection

The FY2025 revenue projection reflects a 5.8% increase from the FY2024 budgeted revenues and is based on a review of historical actuals and projected total receipts for FY2024.

Of note the FY2025 revenue projection includes probation fees received by the City from in-sourcing probation services. Those fees are presently paid by probationers directly to a private probation company pursuant to a out-sourcing contract with the City.

Revenue Detail: Building Residential

\$ 1,252,000 of \$ 78,687,908
1.6% of Projected Revenues

Purpose

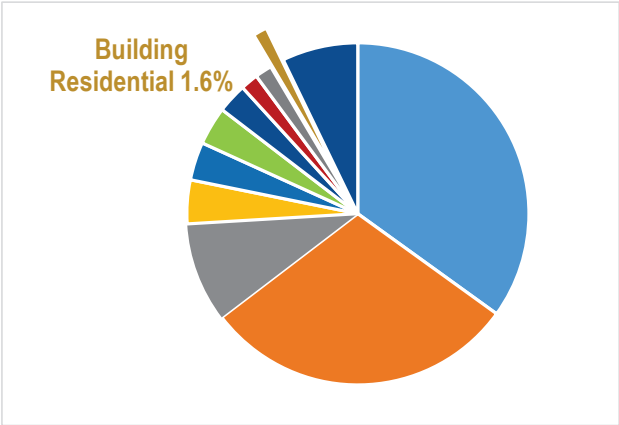

Building Permit and Inspections Fees are imposed to offset the regulatory cost of reviewing, permitting and inspecting the building activity.

Mechanics

Permits and Inspection Fees are set by City Council as part of the approved fee schedule.

Current Rate

Fee is based on submitted construction cost with a building valuation per square foot multiplier within a tiered fee structure. Additional functions such as additional reviews and other permits have additional associated fees.

Projection

The revenue projection FY 2025 represents an increase of 46.6% over the FY 2024 budgeted revenues and is based on a review of historical actuals and projected total receipts for FY 2024.

Revenue Detail: Gas Franchise Fees

\$ 1,050,000 of \$ 78,687,908
1.3% of Projected Revenues

Purpose

Gas Franchise fees are collected per an agreement executed between the City and a utility company that grants the company usage of the City's right-of-way. The fees are intended to reimburse the City for the use and maintenance of the right-of-way. Traditionally, the fees are also viewed as compensation for the awarding by local governments of exclusive rights to specific public utility companies to provide service in specific areas.

Mechanics

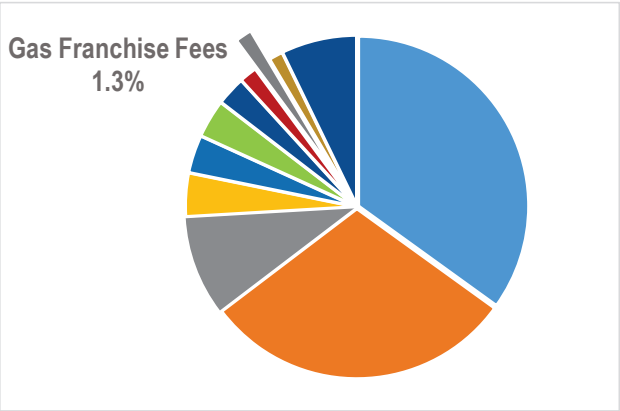

The City currently collects gas franchise fees from one natural gas provider: Atlanta Gas Light (AGL) remits its payments quarterly.

Current Rate

The current gas franchise fee rate is roughly three percent (3%) of total gas sales receipts. It is calculated by using the base year franchise fee factor multiplied by the inflation index and the design day capacity of the last day of the previous fiscal year.

Projection

The FY2025 revenue projection reflects an increase of 4.1% over the FY2024 budgeted revenues and is based on a review of historical actuals and projected total receipts for FY2024.

Personnel

The FY2025 base personnel shows a total of 260 full-time staff compared to the 255 full-time staff authorized in FY2024. The total personnel for FY2025 incorporates the addition of seven full-time personnel additions: (1) Probation Manager, (1) Probation Officer, (2) Crime Suppression Officers, (1) Police Officer/Detective, (1) Intelligence Officer, and (1) Community-Oriented Officer and the removal of (2) Building Inspector positions in the Community Development department. The request for the seven full-time additional positions have been described following the personnel summary. As with prior years, the public safety personnel make up the bulk (190 positions or 73.1%) of the City's personnel.

Personnel Additions Described

Details for each of the new full-time personnel additions included in the FY2025 Budget are described below.

Police: 2 Crime Suppression Officers

The FY2025 Budget adds two Crime Suppression Officers in the Police Department. The Crime Suppression Officers will be a highly proactive and intelligence-led policing team that focuses on enforcement to improve the quality of life for residents and businesses in our City. The areas of concentration are identified based on intelligence, including calls for service and crime analysis information, as well as community tips and complaints to include burglaries, entering autos, and other crimes which disrupt the peace, tranquility, and safety of our community. Once these areas have been identified, the two Crime Suppression Officers will proactively patrol the street to conduct enforcement to detect, deter, and apprehend the criminal element before it negatively impacts our community. The Crime Suppression Officers will work directly with the new Intelligence Officer to seamlessly coordinate between field personnel and intelligence officers, fostering faster response times and more targeted interventions. This collaboration will enhance the efficiency of investigations, improves situational awareness, and empowers law enforcement to proactively address emerging threats, leading to a safer community for our residents.

Police: 1 Intelligence Officer

The FY2025 adds an Intelligence Officer to the Police Department. As Johns Creek's community grows and changes, we have reached the point where a full-time intelligence officer would benefit our community. Presently, intelligence review and analysis is provided as an ancillary or part-time function of the Crime Analyst. Although diligent in their work, given the caseloads and forensic technology investigations, they cannot devote full attention to emerging crime trends and hot spots. Having a full-time intelligence officer would yield numerous benefits. It would improve coordination between field personnel and intelligence officers, fostering faster response times and more targeted interventions before emerging issues become a full-blown trend. A full-time intelligence officer position would enhance the efficiency of investigations, improve situational awareness, and empowers law enforcement to proactively address emerging threats, leading to a safer community for our residents. Having a dedicated intelligence officer ensures that data is processed efficiently, providing actionable insights that support proactive policing strategies and enhance overall public safety across both jurisdictions. Additionally, it would allow for a more comprehensive understanding of criminal activities that transcend jurisdictional boundaries. Having a full-time intelligence officer would enable faster information exchange, facilitating coordinated responses to crimes that may span multiple areas.

Police: 1 Police Officer/Detective

The FY2025 Budget adds another Police Officer/Detective to the Police Department. The Criminal Investigations Division (CID) is responsible for investigating and following up on major crimes, complex cases, and other investigations the Uniform Patrol Division cannot resolve at the time of the incident. As included in the multi-year plan, the Criminal Investigations Division requests the addition of one Detective. As case assignments continue to increase, paired with the complexity of crimes (examples: cybercrime, internet crimes against children, property crimes), the investigative time-frames have increased. The addition of one Detective is important so that JCPD can continue to provide a Johns Creek appropriate level of customer service and attention to residents impacted by crime.

Police: 1 Community-Oriented Police Officer

The community policing philosophy of our department is to promote organizational strategies that support the systematic use of building trusting relationships, partnerships and problem-solving techniques for and with our citizens to proactively address the immediate conditions that give rise to public safety issues such as crime, social disorder, police-community relations, and fear of crime. This community-oriented philosophy and partnership with the community is a significant part of why Johns Creek is such a safe community. In essence, our community is an extension of our Department personnel as eyes and ears throughout the City. As such, community engagement and outreach programs will continue to be a priority for the Police Department as detailed in our multi-year plan (presented in March 2024) and an additional COPS officer is suggested in FY2025. The addition of one new officer in the community policing unit will better enable our agency to continue providing the level of service our residents expect and deserve.

The existing Community Oriented Police Officers (COPS) Unit is involved in many initiatives including: proactive patrols of our community centers, parks, vacation checks, businesses and neighborhoods; supplement Uniform Patrol for response to calls for service, accident investigations, traffic enforcement, City Hall walk-ins, and critical incidents as needed; special operation enforcement to include holiday traffic enforcement, DUI selective patrols, and provide security for City special events throughout the year; serving as liaisons with our many neighborhood Homeowners Associations for problem solving, awareness, and crime prevention; and plan, coordinate, and host community engagement events to include Citizens Police Academy, Teen Driving Safety course, Women's Self-defense training, Active Shooter training, Faith and Blue events, Town Hall programs, and numerous other annual engagement and outreach initiatives.

It is anticipated the need for these current efforts will only expand and develop with the expected future growth of our City. The addition of one new officer in our COPS unit will further the Police Department's abilities to continue to provide the level of service and quality of life our citizens deserve and expect.

Court: (1) Probation Manager and (1) Probation Officer

The FY2025 Budget transitions to in-house probation to improve customer service, reduce recidivism, and further probation reforms supported by HB310. Based on current caseloads and historical trends, the probation services will be provided by two full-time personnel: a Probation Manager and a Probation Officer. The Probation Officer and Probation Manager will share the probation caseload responsibilities. The Probation Manager will report directly to the Court Administrator and supervise the Probation Officer. As an extension of public safety, the City must consider the effects caused by an increase in law enforcement officers hired by the police department. Public safety does not stop with the issuance of a traffic citation. A chain reaction occurs in that the court's caseload and staff's workload ultimately increases. The court serves as the final step of the criminal justice arena in an effort to safeguard public safety and to ensure the rule of law is actually imposed and those cited are held accountable. The Court provides access to equal justice by upholding the rule of law. With an increased caseload comes increased sentencing requirements that require the services of probation.

Personnel Variance Analysis

The largest expenditures in the FY2025 Budget are the personnel costs at \$39.8M or roughly 63.1% of the General Fund. As a service-oriented organization, personnel costs will likely always be the City's largest expenditure as people deliver our services to the community.

The variance analysis that follows compares each component of the personnel expenditures to the FY2025 Budget. Increases or (decreases) are shown as well as the percentage of the increase or (decrease).

Object Account	FY2024			FY2025 Proposed	\$ Inc / Dec from 2024	% Inc (Dec)

Assumptions:

FY2025 COLA assumes a 2.6% increase for full-time employees. Merit step-increase of 3.3% is assumed for full-time employees and merit step increase of 3.5% is assumed for Department Heads. The FY2025 Budget continues the Public Safety retention bonus program that awards employees with a \$5K bonus upon completion of each fifth year with the City. A total of 9 Police and 10 Fire employees will reach a fifth year increment in FY2025.

The most significant variance in personnel costs is an increase in health insurance costs which reflects both general industry increases as well as claims history specific to the City of Johns Creek. After considering a final renewal proposal from our current provider (Aetna) that represented a 54% increase over current costs, the budget anticipates shifting providers to Cigna. Not only is the increase less than that of the current provider (for the same coverage and plan design) but the Cigna coverage/network matches over 99% of medical providers and over 98% of prescription drugs currently prescribed to City employees (or their dependents) so is anticipated to have low disruption to employees. To help employees defray the increase in health insurance costs, in addition to the cost of living adjustment, as shown in the capital/enhancements portion of the budget, the Council has set aside \$150,000 to be used for wellness programs such as preventative care credits that would simultaneously financially reward and incentivize employees to actively invest in their health (such as an annual physical, biometric screening, and wellness coaching) in an effort to improve health and wellness and reduce healthcare costs over time.

Staff Uniforms	Various	\$100	40	\$4,000
531710				\$4,000
				\$3,303,858

Capital Projects and Enhancements (Fund 301)

Historically, the City has considered the selection of capital projects (defined as an expenditure that has an expected useful life of one (1) year or more with an estimated total cost of \$100,000 or more) on an ad hoc basis during preparation of the annual operating budget or during allocation of any year-end surplus. While making ad hoc decisions about which capital projects to pursue based on available funding is not inherently bad, it can be difficult to coordinate to long-range plans and make fully informed decisions.

In an effort to improve the annual budgeting process and provide additional transparency and clarity for implementation of long-range initiatives, in November 2023, the City Council began the process to develop a Capital Improvement Planning Policy and a five-year Capital Improvement Plan (detailing projects of consensus). The Capital Improvement Plan (CIP) projects were discussed at the City Council annual retreat in January and several Work Sessions in the spring. On May 6, 2024, the City Council formally adopted the five-year Capital Improvement Plan specifying nine projects for FY2025. Of note, the CIP is a prioritization effort connecting all the adopted plans and desired capital projects and does not allocate specific funding. The projects identified for FY2025 represent the upcoming needs for the City and that these projects are suitable for inclusion and consideration for funding as part of the FY2025 Budget. All nine projects have been included below and the descriptions note the priority order from the CIP.

In addition to the FY2025 capital projects from the CIP, enhancement requests (projects or personnel additions/reclassifications that expanded/improved services beyond the current service level) are listed below. All projects (capital and enhancements) have been reviewed and prioritized for funding to the extent possible within available resources. The Capital Projects and Enhancements recommended for funding are summarized in a table below and then described more fully on the pages that follow.

Summary of FY2025 Capital Projects and Enhancements

	Type	Requested	Funded	CIP Category
1 Fire Station #63 / Police South Substation - Construction Funding	Capital	\$7,300,000	\$7,300,000	Public Safety
2 Personnel Addition: 2 Crime Scene Suppression Officers	Enhancement	\$286,336	In Operations	Public Safety
3 Personnel Addition: 1 Intelligence Officer	Enhancement	\$143,168	In Operations	Public Safety
4 Personnel Addition: 1 Police Officer/Detective	Enhancement	\$143,168	In Operations	Public Safety
5 Personnel Addition: 1 Community-Oriented Police Officer	Enhancement	\$143,168	In Operations	Public Safety
6 Personnel Addition: 1 Probation Manager and 1 Probation Officer	Enhancement	\$106,568	In Operations	Enhancement
7 Vehicles for 2 new Crime Suppression Officers	Capital	\$170,000	\$170,000	Public Safety
8 Vehicle for Intelligence Officer	Capital	\$65,000	\$65,000	Public Safety
9 Vehicle for Police Officer/Detective	Capital	\$65,000	\$65,000	Public Safety
10 Vehicle for Community-Oriented Police Officer	Capital	\$85,000	\$85,000	Public Safety
11 Wellness Initiative	Enhancement	\$150,000	\$150,000	Enhancement
12 Additional Parking for Cauley Creek Park Courts Area	Capital	\$300,000	\$300,000	Recreation
13 Stormwater Grant Program	Capital	\$500,000	\$422,000	Other
14 Arts Facility - Construction Funding	Capital	\$6,000,000	\$0	Other
15 Medlock Bridge Trail West - Engineering	Capital	\$150,000	\$0	Transportation
16 Medlock Bridge Trail East - Engineering	Capital	\$200,000	\$0	Transportation
17 Stormwater Improvement at Fire Station #61 - Drainage Retrofits	Capital	\$300,000	\$0	Other
18 Stormwater Improvement along Old Alabama Corridor to add Bioswales	Capital	\$450,000	\$0	Other
19 Personnel Addition: Economic Development Specialist	Enhancement	\$128,739	\$0	Enhancement
20 Personnel Addition: Special Projects / Grant Writer	Enhancement	\$122,506	\$0	Enhancement
21 Master Plan for Kimball Bridge Road at State Bridge Road (Grand Pavilion) Revitalization	Enhancement	\$165,000	\$0	Enhancement
22 Personnel Reclassification: Part-Time to Full-Time for Court Office Assistant	Enhancement	\$107,372	\$0	Enhancement
23 Personnel Addition: Part-Time Administrative Worker	Enhancement	\$26,913	\$0	Enhancement
24 Software Addition for Fire Reporting: First Watch	Enhancement	\$123,000	\$0	Enhancement
		\$17,230,938	\$8,557,000	

Details of Funded Requests

1	Fire Station #63 / Police South Substation - Construction Funding	Funded: \$7,300,000
	<i>CIP Priority #1</i>	<i>Requested: \$7,300,000</i>
	<p>Built in 1983 and located at 3165 Old Alabama Road, fire station #63 is the oldest fire station serving Johns Creek. The design and age of the building combined with the materials used in construction have resulted in frequent repair issues over the years. As fire station #63 continued to suffer from compounding plumbing, mechanical, structural and roofing issues, the City was also reviewing options related to the space being leased for the police south substation (located at 3005 Old Alabama Road). The City determined that long-term, the substation should be integrated with fire station #63. After considering basic space requirements, the current fire station #63 site (at roughly 1.4 acres with several utility uses on the premise) was determined to be too small to meet the City's needs. To fit the combined fire station and police substation (and the associated parking area), the City began looking for property on which the new fire station / police substation could be constructed. Locations were reviewed in terms of impact to public safety response, constructability, and price. After reviewing several locations, the City determined the ideal location is an undeveloped lot just across Old Alabama Road (with access from Brumbelow Road) with direct adjacency to Newtown Park. The property is addressed at 9880 Brumbelow Road and is approximately 2.11 acres. Property acquisition was finalized in November 2023.</p> <p>Following a public RFP and selection process, Council authorized a design contract with CROFT during the September 5, 2023 Council Meeting. During the design process, staff considered both the "wants" and "needs" for the new facility. Ultimately, the floorplan was set in January 2024. Reviewed by Council in March 2024, the main features for the facility include two double-depth bays for apparatus, 8 bunk rooms, a conference room, 2 offices for police, and six cubicle workspaces for the Traffic Enforcement Unit. As the design has progressed, the cost estimate has become more firm. As of the initial draft of the FY2025 Budget documents, the design has just past the 60% milestone and the construction cost estimate is \$10M. Considering the \$2M previously allocated, an anticipated \$0.7M of FY2024 surplus (anticipated to be allocated to the project), the proposed \$7,300,000 in funding would fully fund construction of the facility.</p>	
2	Police: 2 Crime Suppression Officers	Funded: In Operations
	<i>Requested by: Police</i>	<i>Requested: \$286,336</i>
	<p>The FY2025 Budget adds two Crime Suppression Officers in the Police Department. The Crime Suppression Officers will be a highly proactive and intelligence-led policing team that focuses on enforcement to improve the quality of life for residents and businesses in our City. The areas of concentration are identified based on intelligence, including calls for service and crime analysis information, as well as community tips and complaints to include burglaries, entering autos, and other crimes which disrupt the peace, tranquility, and safety of our community. Once these areas have been identified, the two Crime Suppression Officers will proactively patrol the street to conduct enforcement to detect, deter, and apprehend the criminal element before it negatively impacts our community. The Crime Suppression Officers will work directly with the new Intelligence Officer to seamlessly coordinate between field personnel and intelligence officers, fostering faster response times and more targeted interventions. This collaboration will enhance the efficiency of investigations, improves situational awareness, and empowers law enforcement to proactively address emerging threats, leading to a safer community for our residents.</p>	
3	Police: 1 Intelligence Officer	Funded: In Operations
	<i>Requested by: Police</i>	<i>Requested: \$143,168</i>
	<p>The FY2025 adds an Intelligence Officer to the Police Department. As Johns Creek's community grows and changes, we have reached the point where a full-time intelligence officer would benefit our community. Presently, intelligence review and analysis is provided as an ancillary or part-time function of the Crime Analyst. Although diligent in their work, given the caseloads and forensic technology investigations, they cannot devote full attention to emerging crime trends and hot spots. Having a full-time intelligence officer would yield numerous benefits. It would improve coordination between field personnel and intelligence officers, fostering faster response times and more targeted interventions before emerging issues become a full-blown trend. A full-time intelligence officer position would enhance the efficiency of investigations, improve situational awareness, and empowers law enforcement to proactively address emerging threats, leading to a safer community for our residents. Having a dedicated intelligence officer ensures that data is processed efficiently, providing actionable insights that support proactive policing strategies and enhance overall public safety across both jurisdictions. Additionally, it would allow for a more comprehensive understanding of criminal activities that transcend jurisdictional boundaries. Having a full-time intelligence officer would enable faster information exchange, facilitating coordinated responses to crimes that may span multiple areas.</p>	
4	Police: 1 Police Officer/Detective	Funded: In Operations
	<i>Requested by: Police</i>	<i>Requested: \$143,168</i>
	<p>The FY2025 Budget adds another Police Officer/Detective to the Police Department. The Criminal Investigations Division (CID) is responsible for investigating and following up on major crimes, complex cases, and other investigations the Uniform Patrol Division cannot resolve at the time of the incident. As included in the multi-year plan, the Criminal Investigations Division requests the addition of one Detective. As case assignments continue to increase, paired with the complexity of crimes (examples: cybercrime, internet crimes against children, property crimes), the investigative time-frames have increased. The addition of one Detective is important so that JCPD can continue to provide a Johns Creek appropriate level of customer service and attention to residents impacted by crime.</p>	

5	Police: 1 Community-Oriented Police Officer	Funded: In Operations
	<i>Requested by: Police</i>	<i>Requested: \$143,168</i>
	<p>The community policing philosophy of our department is to promote organizational strategies that support the systematic use of building trusting relationships, partnerships and problem-solving techniques for and with our citizens to proactively address the immediate conditions that give rise to public safety issues such as crime, social disorder, police-community relations, and fear of crime. This community-oriented philosophy and partnership with the community is a significant part of why Johns Creek is such a safe community. In essence, our community is an extension of our Department personnel as eyes and ears throughout the City. As such, community engagement and outreach programs will continue to be a priority for the Police Department as detailed in our multi-year plan (presented in March 2024) and an additional COPS officer is suggested in FY2025. The addition of one new officer in the community policing unit will better enable our agency to continue providing the level of service our residents expect and deserve.</p> <p>The existing Community Oriented Police Officers (COPS) Unit is involved in many initiatives including: proactive patrols of our community centers, parks, vacation checks, businesses and neighborhoods; supplement Uniform Patrol for response to calls for service, accident investigations, traffic enforcement, City Hall walk-ins, and critical incidents as needed; special operation enforcement to include holiday traffic enforcement, DUI selective patrols, and provide security for City special events throughout the year; serving as liaisons with our many neighborhood Homeowners Associations for problem solving, awareness, and crime prevention; and plan, coordinate, and host community engagement events to include Citizens Police Academy, Teen Driving Safety course, Women's Self-defense training, Active Shooter training, Faith and Blue events, Town Hall programs, and numerous other annual engagement and outreach initiatives. It is anticipated the need for these current efforts will only expand and develop with the expected future growth of our City. The addition of one new officer in our COPS unit will further the Police Department's abilities to continue to provide the level of service and quality of life our citizens deserve and expect.</p>	
6	Court: (1) Probation Manager and (1) Probation Officer	Funded: In Operations
	<i>Requested by: Court</i>	<i>Requested: \$106,568</i>
	<p>The FY2025 Budget transitions to in-house probation to improve customer service, reduce recidivism, and further probation reforms supported by HB310. Based on current caseloads and historical trends, the probation services will be provided by two full-time personnel: a Probation Manager and a Probation Officer. The Probation Officer and Probation Manager will share the probation caseload responsibilities. The Probation Manager will report directly to the Court Administrator and supervise the Probation Officer. As an extension of public safety, the City must consider the effects caused by an increase in law enforcement officers hired by the police department. Public safety does not stop with the issuance of a traffic citation. A chain reaction occurs in that the court's caseload and staff's workload ultimately increases. The court serves as the final step of the criminal justice arena in an effort to safeguard public safety and to ensure the rule of law is actually imposed and those cited are held accountable. The Court provides access to equal justice by upholding the rule of law. With an increased caseload comes increased sentencing requirements that require the services of probation.</p>	
7	Vehicles for 2 new Crime Suppression Officers	Funded: \$170,000
	<i>CIP Priority #2</i>	<i>Requested: \$170,000</i>
	<p>The proposed FY2025 Budget includes funding for two Crime Suppression Officers (incorporated in the Police Department operating budget and shown on the Personnel listing). Each officer requires a patrol vehicle. Considering upfitting (lights, sirens, etc.) and the current purchase price for the base vehicle, \$85K is needed for each police vehicle for a total of \$170K for the two vehicles. As new vehicles, these are not requested from the Vehicle Replacement Accrual Fund but new capital requests. Subsequent budgets will accrue for the eventual replacement of these new vehicles.</p>	
8	Vehicle for Intelligence Officer	Funded: \$65,000
	<i>CIP Priority #2</i>	<i>Requested: \$65,000</i>
	<p>The proposed FY2025 Budget includes funding for an Intelligence Officer position (incorporated in the Police Department operating budget and shown on the Personnel listing). If adding an Intelligence Officer position, a police vehicle will be needed. Considering upfitting (lights, sirens, etc.) and the current purchase price for the base vehicle, \$65K is needed for the vehicle. As a new vehicle, this is not requested from the Vehicle Replacement Accrual Fund but as a new capital project. If purchased, subsequent budgets will accrue for the eventual replacement of this new vehicle.</p>	
9	Vehicle for Police Officer/Detective	Funded: \$65,000
	<i>CIP Priority #2</i>	<i>Requested: \$65,000</i>
	<p>The proposed FY2025 Budget includes funding for an additional Detective/Police Officer position (incorporated in the Police Department operating budget and shown on the Personnel listing). If adding a Detective position, a police vehicle will be needed. Considering upfitting (lights, sirens, etc.) and the current purchase price for the base vehicle, \$65K is needed for the vehicle. As a new vehicle, this is not requested from the Vehicle Replacement Accrual Fund but as a new capital project. If purchased, subsequent budgets will accrue for the eventual replacement of this new vehicle.</p>	
10	Vehicle for Community-Oriented Police Officer	Funded: \$85,000
	<i>CIP Priority #2</i>	<i>Requested: \$85,000</i>
	<p>If adding a Community-Oriented Policing Officer position, a police vehicle will be needed. Considering upfitting (lights, sirens, etc.) and the current purchase price for the base vehicle, \$85K is needed for the vehicle. As a new vehicle, this is not requested from the Vehicle Replacement Accrual Fund but as a new capital project. If purchased, subsequent budgets will accrue for the eventual replacement of this new vehicle.</p>	
11	Wellness Initiative	Funded: \$150,000
	<i>Enhancement</i>	<i>Requested: \$150,000</i>
	<p>In an effort to combat rising healthcare costs this \$100,000 investment would expand our employee wellness program for Fiscal Year 2025. This initiative prioritizes our employees' well-being and aims to create a healthier workforce. The proposed wellness initiative includes personalized wellness coaching based on biometric screening results, nutritional counseling, and specialized testing for first responders. The initiative will be paired with monthly challenges and employee health fairs to support a culture of health and well-being. This investment is a strategic response to our concerning healthcare cost increases. Similar wellness programs in other cities and counties have demonstrated reduced healthcare costs within a few years, offering a strong return on investment. Our healthcare broker also strongly recommends this approach.</p>	

12	Additional Parking for Cauley Creek Park Courts Area	Funded:	\$300,000
	<i>CIP Priority #3</i>	<i>Requested:</i>	<i>\$300,000</i>
	Cauley Creek Park was opened Summer of 2023. The popularity and use of the courts area is high and the parking demand exceeds the available parking. In times of peak use, vehicles park on the sides of the interior park roadway creating potential safety issues and damaging park grounds. This project would construct a new overflow parking lot to add 80-100 spaces and connecting sidewalks adjacent to the courts complex at Cauley Creek Park. The new overflow parking would likely begin as a gravel or minimally improved surface and could be later paved based on demands of usage, maintenance, and upkeep.		
13	Stormwater Grant Program	Funded:	\$422,000
	<i>CIP Priority #4</i>	<i>Requested:</i>	<i>\$500,000</i>
	The proposed Stormwater (Green Infrastructure) Grant Program would incentivize residents and property owners to install stormwater management practices on their private properties to improve overall water quality in the City. The program is anticipated to encourage the installation of green infrastructure such as bioretention areas (or rain gardens), cisterns, permeable pavement, and stream restoration projects. The anticipated review criteria would prioritize projects that have a measured benefit to the overall stormwater system, not just the applicant on whose property the water quality improvement would be installed. Given the City's broader aims for reducing erosion and improving water quality, the review criteria could further incentivize projects that provide water quality or runoff reduction benefits that exceed development standards. Modeled after best practices, the program is anticipated to be a cost-share program and awarded projects would receive assistance grants on a reimbursement basis. The grant program is identified in each of the Stormwater Master Plan as a means of improving overall water quality and reducing streambank erosion.		

Infrastructure Maintenance Accrual (Fund 302)

To provide for the care of existing assets and infrastructure, in 2016 the City Council created the Infrastructure Maintenance Accrual. The original accrual took the amount available above the minimum needs for capital projects and dedicated all of it to existing infrastructure. In 2020, the amount of funding set aside was adjusted for the transportation-related and parks accruals based on a study of existing assets and consideration of each component's lifecycle and replacement cost. Based on this additional study, four accruals (roads and right-of-way; sidewalk and trails; traffic signal system; bridges, tunnels, and dams; and parks) were reset and began accruing at a higher rate in FY2021. In 2021, a reserve study was completed for City Hall and each of the Fire Stations and the associated accruals were reset in FY2022. Since then, the accrual amounts have been increased annually by inflation in an effort to ensure contributions were keeping up with rising costs for replacements and repair of the infrastructure.

As part of the preparation of the FY2025 Budget, additional analysis has been completed on the maintenance accruals after comparing the interest returns on fund balance to the inflation rates (and erosion of purchasing power over time on the fund balance). Where saving for future repairs and maintenance of existing infrastructure is a smart financial habit, when interest rate being earned on fund balance is below that of inflation rates, there can be such a thing as too much savings. Staff's analysis to adjust the maintenance accruals tapped into a deep understanding of the pace and plan for upcoming repair and replacement projects as compared to the aggregate in fund balance. The FY2025 Budget proposes a recalibration to both the individual accrual fund balances and the contributions to ensure the City is being wise in its saving compared to the interest earned on savings, the impacts of inflation, and the benefits of improvement projects. New targeted fund balances for each maintenance accrual component consider the likelihood for planned and unplanned projects in any given year calibrated by a multiplier against the typical project year. For example, 1.5X typical annual project outlay has been reset as the targeted individual balance for roads and right-of-way and traffic signal system. For the parks accrual component, given the backlog of park improvements identified in the 2023 Recreation and Parks Master Plan, the targeted balance is 2X the typical annual project spend. Each accrual component has a targeted fund balance of at least 1.5X the typical project outlay to ensure that the City could continue to invest in its existing infrastructure even if faced with a recession or financially difficult situation that prevented contributions from being made in any particular year.

When comparing FY2024 to FY2025, downward adjustments have been made to four accruals (Roads and Right-of-Way; Sidewalk and Trails; Traffic Signal Systems; and Bridges, Tunnels, and Dams). The downward adjustments take into account their accumulated fund balance and last eight years of expenditures/maintenance projects. Additionally, upward adjustments were made to Parks to address a targeted reserve level within this accrual fund. These upward adjustments were made in consideration of their accumulated fund balance, last eight years of expenditures/maintenance projects, and last several years of additions to the system related to their areas (such as the 203-acre addition of Cauley Creek Park to the infrastructure covered by the parks maintenance accrual). Additional adjustments will be made in future years until each accrual component reaches its targeted balance level.

Maintenance Accruals	Beginning Balance	FY2025		Ending Balance
		Contributions	Projects	
Roads and Right-of-Way	\$8,545,355	\$2,860,945	\$3,600,000	\$7,806,300
Sidewalks and Trails	\$1,848,147	(\$16,973)	\$400,000	\$1,431,174
Traffic Signal System	\$3,604,299	(\$2,071,049)	\$250,000	\$1,283,250
Bridges, Tunnels, and Dams	\$4,138,000	(\$2,041,049)	\$0	\$2,096,951
Parks	\$2,530,488	\$3,623,856	\$2,700,000	\$3,454,344
Fire Stations	\$1,877,836	\$341,000	\$615,000	\$1,603,836
City Hall	(\$49,025)	\$632,000	\$450,000	\$132,975
Land Acquisition	\$6,642,467	\$0	\$0	\$6,642,467
Total	\$29,137,568	\$3,328,730	\$8,015,000	\$24,451,298

Summary of Requests	Accrual	Funded
1 City Hall - HVAC Replacement Project - Phase IV	City Hall	\$200,000
2 City Hall - Building Repairs and Maintenance	City Hall	\$165,000
3 City Hall - Replacement of Roof Drains	City Hall	\$85,000
4 Fire Station Building Repairs and Maintenance	Fire Stations	\$165,000
5 Fire Station Alerting System (Replacing at all 4 Stations)	Fire Stations	\$400,000
6 Fire Station - Pump Repair Fire Station #61	Fire Stations	\$50,000
7 Resurfacing (Main Roads & Neighborhood Roads)*	Roads and Right-of-Way	\$2,250,000
8 Roadway Patching	Roads and Right-of-Way	\$600,000
9 Pavement Marking Refreshes and Restriping	Roads and Right-of-Way	\$200,000
10 Road and Right-of-Way Maintenance Materials	Roads and Right-of-Way	\$400,000
11 Sign Maintenance Materials	Roads and Right-of-Way	\$150,000
12 Concrete Repairs and Maintenance	Sidewalks and Trails	\$400,000
13 Traffic Signal and ITS Maintenance Materials	Traffic Signal System	\$250,000
14 Park Maintenance Materials	Parks	\$1,400,000
15 Park Refreshes	Parks	\$450,000
16 Ocee Park - Baseball Quad Lights Replacement	Parks	\$850,000

*resurfacing partially funded using FY2025 LMIG as shown in Other Funds - Fund 250 on page 91

Total \$8,015,000

City Hall - Projects Described

1	City Hall - HVAC Replacement Project - Phase IV	\$200,000
<p>The heating, ventilation, and cooling systems (HVAC) for City Hall is a significant issue that was not addressed with the renovation of the building and is being tackled in a phased approach. This entire system is operated by four rooftop units (RTUs) and over 80 plenum induction PIUs operating in zones throughout the building. Ideally, the RTUs begin heating and or cooling the building and then once the desired room temperature is reached, the PIUs would maintain the temperature throughout the building during business hours. However, the initial RTU's did not have forced heated air capabilities, so the existing PIUs had to do most of the work which has caused them the failure rate to be accelerated on an already aged system. With the FY2022 & FY2023 Budgets, the City replaced/repairs the RTUs to have the heating capabilities needed. The FY2024 Budget began the process of replacement/repairing of the smaller PIU's scattered throughout all three floors. In FY2024 ten of the existing PIUs were replaced. The requested \$200,000 for FY2025 is anticipated to cover the replacement of at least ten additional PIUs and the required test and balance needed afterwards. The additional PIU replacements will be prioritized based on current repair cost/issues and their ability to properly manage the conditioned air space that they cover.</p>		
2	City Hall - Building Repairs and Maintenance	\$165,000
<p>General repairs and maintenance of various systems at City Hall. Since moving into the City Hall building, repairs have been necessary each year. Based on review of actual repairs completed in the past several years, the requested funding for FY2025 is anticipated to cover: \$10K of plumbing repairs, parts, and supplies (such as various toilet and urinal replacement parts; and faucet parts and replacements); \$10K of electrical repairs, parts, and supplies (including infrared inspections and repairs as well as exterior lights and parking lots); \$5K for roof repairs discovered in bi-annual inspections; \$10K of window repairs and replacements related to leaks; \$10K of door repairs (including hardware and glass replacement); \$15K of life safety related repairs or replacements (including the repairs related to the fire alarm control panel or other alerting devices and systems, batteries, and parts to repair systems); \$20K of HVAC supplies and repairs (condenser motor/fan kit replacements, refrigerator repairs, filters, parts, and supplies); \$25K carpet and flooring repairs; \$25K of painting, drywall repairs, and other surface covering repairs; \$25K of minor building renovations and improvements.</p>		
3	City Hall - Replacement of Roof Drains	\$85,000
<p>The City Hall roof has numerous original roof drains which are failing and can no longer be properly sealed. On multiple occasions, interior flooding has occurred because of improperly sealed roof drains (causing significant damage on all three floors of the building). While minor repairs to replace the flashing around these drains have proven ineffective, the proposed project would remove existing roof drains and install the new ones. The requested funds would cover materials and installation for this project.</p>		

Fire Station - Projects Described

4	Fire Station Building Repairs and Maintenance	\$165,000
<p>Routine facility repairs and incidental repairs associated with all four fire stations. Based on a review of historical repairs, the proposed funding is anticipated to provide for incidental repairs needed throughout the year to include: plumbing, electrical, HVAC, structural, and mechanical (such as overhead door and motor repairs). In addition to the system repairs, small projects to replace existing fire station infrastructure area anticipated such as replacement of the awning at Station #62, refresh of the reception area at Station #61, replacement of the icemaker at Station #61, and replacement of the fans at Station #62 and Station #61.</p>		
5	Fire Station Alerting System (Replacing at all 4 Stations)	\$400,000
<p>The alerting system at the fire stations connects with the 9-1-1 dispatch center and is a critical link to ensure Fire Department personnel are made aware of each incident requiring their response. Due to shifting personnel and apparatus between stations, the alerting system must be uniform across all four fire stations. The current alerting system relies on technologies from several decades ago and although rudimentary is an effective audible page that broadcasts on radio speakers. With the anticipated FY2025 construction of the replacement Fire Station #63, the City has a choice to either install older technologies to match the current system (which is approaching end of life) or install a modern alerting system based on current technologies and replace the aging systems at the other stations. The modern alerting systems come with several added benefits. Rather than one audible tone, the modern system utilizes ramped up audible warning, has multiple tones, and have text to voice dispatch capabilities for a clearer and more concise, single-step apparatus dispatching. Additionally, the modern alerting system is compatible with the 9-1-1 dispatching system that prioritizes what calls when multiple are received at the same time and allows for higher priority calls to be dispatched first based on preprogrammed sequencing. The modern alerting systems include variable message boards in the stations and turn out timers which have been proved to help lower turn out time and overall response time.</p>		
6	Fire Station - Pump Repair Fire Station #61	\$50,000
<p>This is a request to replace the fuel pumping mechanism at Fire Station 61. This particular part of the fuel system at this fire station has been in operation prior to the launch of the Johns Creek Fire Department so it is at least 16 years old. It has been experiencing failures over the past few years which have become more common in recent months. Additionally, due to the age of the device it is increasingly difficult to locate parts for repairs.</p>		

Road and Right-of-Way - Projects Described

7	Resurfacing (Main Roads & Neighborhood Roads)*	\$2,250,000
<p>In 2011, the City Council set a target Pavement Quality Indicator (PQI) score of 70 and committed to a \$4-\$5M investment annually to improve the quality of the roadways. In 2018 and again in 2023, the City completed pavement study to check the overall conditions of the roadways and re-prioritize resurfacing efforts. Based on the latest 2023 pavement analysis, an annual investment of \$3M is needed to maintain a PQI score of 70 for the five year period from 2023 to 2027. The overall roadway condition will be studied again after the resurfacing in 2027 and it is anticipated the funding level may step down again, although the amount of a step down will be tempered by the inflation of construction costs. The requested funding provides for annual resurfacing efforts on main and neighborhood roadways and the associated construction, engineering, and inspection (CEI) costs for the effort.</p> <p><i>*Although shown as funded at \$2.25M, an additional \$750K (for a full \$3M) is funded in FY2025 as shown in Other Funds - Fund 250 through the LMIG (Local Maintenance Improvement Grant) program. Annually, the State of Georgia redistributes a portion of gasoline taxes through the LMIG program. The City's allocation is based on the total centerline road miles and the total population compared with the total statewide centerline road miles and total statewide population. The use of the funding is restricted but resurfacing is an allowable use.</i></p>		
8	Roadway Patching	\$600,000
<p>Vehicle usage and weather cause roadways to deteriorate over time. The distresses / deterioration in the asphalt is evidenced in cracks and potholes. Asphalt patching is one of the most effective ways to address significant potholes. Additionally, annual roadway patching efforts are vital to stop the deterioration of roads to the point that they must be fully reconstructed when resurfaced. As such, asphalt patching and pothole repair are a part of the City's long-term strategy to gradually improve the condition of the roads. The segments for patching are identified based on Pavement Quality Index scores, potholes, and other identified roadway failures (cracks, gaps, roughness). The requested funding matches the amount the City has set aside for the last several years and would provide for annual roadway patching efforts.</p>		
9	Pavement Marking Refreshes and Restriping	\$200,000
<p>Pavement markings, including striping and reflective pavement markers (RPMs) provide guidance to drivers by delineating travel lanes and reminding drivers where they should be on the roadway. Appropriately retroreflective pavement markings have been shown to have a positive correlation to improve safety of travel, particularly nighttime travel. Pavement markings wear and deteriorate over time from both vehicle travel and weather. To maintain the overall roadway condition, the City restripes and replaces pavement markers as part of the maintenance of our roadways. The requested funding matches the amount the City has set aside for the last several years and would provide for annual pavement marking refreshes and restriping needs.</p>		
10	Road and Right-of-Way Maintenance Materials	\$400,000
<p>Maintaining the City's roads and right-of-way areas requires a significant amount of materials (from pothole repair supplies to landscaping materials). The City has found by separating the labor costs from the costs for materials provides better transparency as to true cost of providing service and understanding the needs for labor versus materials. Additionally, in some instances it is more cost-effective to purchase materials directly for use by the contracted maintenance provider. The labor costs associated with right-of-way maintenance remain in the operating budget. The requested funding matches the amount the City has set aside the last several years and is anticipated to address the needs for road and right-of-way maintenance materials.</p>		
11	Sign Maintenance Materials	\$150,000
<p>The City maintains street signs, vehicular directional signage, and a limited number of wayfinding signs (such as those noting the park entrances). The majority of the City's signs are constructed of aluminum or high density urethane in an effort to improve durability and limit maintenance. However, all outdoor signs exposed to the elements deteriorate over time (evidenced in fading and reduced retroreflectivity). Additionally, signs within the right-of-way are occasionally damaged by motor vehicle accidents. The requested funding matches the amount the City has set aside for the last several years and is anticipated to address the needs for sign replacement and maintenance.</p>		
Sidewalks and Trails - Project Described		
12	Concrete Repairs and Maintenance	\$400,000
<p>If properly installed, concrete sidewalks, curbs, and gutters can last for decades. However, concrete requires maintenance for lasting durability. Weather (freeze-thaw disintegration), nature (tree roots creating horizontal displacement), and vehicle accidents are leading causes of concrete distress and deterioration (cracks and other more visible failures). The requested funding matches the amount the City has set aside for the last several years and is anticipated to address the needs for concrete repairs and maintenance.</p>		

Traffic Signal System - Project Described

13	Traffic Signal and ITS Maintenance Materials	\$250,000
<p>Maintaining the City's traffic signal system requires materials (from traffic signal heads to traffic signal controllers). The City has found by separating the labor costs from the costs for materials provides better transparency as to true cost of providing service and understanding the needs for labor versus materials. The labor costs associated with traffic signal maintenance contract remain in the operating budget. Historically, the City has set aside \$200K annually for the traffic signal maintenance materials. Throughout FY2024, staff has been anticipating significant cost increasing related to traffic signal components and ITS maintenance materials. For FY2025, the requested \$250K for traffic signal and ITS maintenance materials is anticipated to address the needs while covering the experienced increased costs.</p>		

Park - Projects Described

14	Park Maintenance Materials	\$1,400,000
<p>Maintaining the City's parks system requires materials (from pine straw and gravel to toilet paper and fill dirt of infield leveling). The City has found by separating the labor costs from the costs for materials provides better transparency as to true cost of providing service and understanding the needs for labor versus materials. The labor costs associated with parks system maintenance contract remain in the operating budget. With Cauley Creek Park coming online in the summer of 2023, the FY2024 Budget increased the funding set aside for Park Maintenance Materials. Year-to-date spending has proven the increased funding for materials to be the appropriate level to meet the needs of materials in the parks. The requested funding matches the amount the City set aside in FY2024.</p>		
15	Park Refreshes	\$450,000
<p>Keeping park facilities current, including replacement/upgrades in worn park equipment and features is a significant focus for the Recreation and Parks Department. The high level of usage at our parks necessitates an investment to keep the facilities looking as inviting and "new" as possible. The Recreation and Parks Master Plan (adopted in 2023) prioritizes projects to refresh each of the existing parks.</p> <p>For 2025, anticipated projects include Autrey Mill Nature Preserve animal habitat relocation; Ocee Park common area renovations for improved surface durability; Shakerag Park nature trail walking surface improvements; and Cauley Creek Park, Ocee Park, and Shakerag Park wayfinding signage.</p>		
16	Ocee Park - Baseball Quad Lights Replacement	\$850,000
<p>The existing lighting system for the quad of baseball fields at Ocee Park is original to the park and has experienced increased maintenance issues over the last decade, particularly in the last few years as the lights reach their end-of-life. The lights are old-fashioned halogen bulbs and the lighting fixtures are harder to repair each year as parts and pieces become less available. The Recreation and Parks Master Plan (adopted in 2023) anticipates replacing the lights for one of the four field each year over the next four years. Although this would spreadout the financial cost, the impact on park patrons and the uneven lighting environment that would be created, as well as the dual system of lights (over the four years of replacement), would present significant challenges. The requested funding would replace the field lighting for all four of the fields in the baseball quad as one project. Completing the project as one effort will reduce the mobilization costs and limit disturbance to park patrons. Retrofitting with LED lighting will also make the system more energy efficient, durable and operationally less cumbersome.</p>		

Equipment Accrual (Fund 303)

The Equipment Accrual was established in FY2019 in recognition that from our public safety departments to the information technology that serves as the backbone of all departments, the City has recurring equipment costs that can be best accounted for and addressed through an accrual. Similar to the Infrastructure Maintenance Accrual and Vehicle Replacement Accrual, the Equipment Accrual is designed to build-up for larger expenditures by spreading the cost out over the years leading up to a major replacement project. Additionally, the Equipment Accrual is designed to ensure funding for basic equipment needs are provided for before capital projects and enhancements.

Equipment Accruals	Beginning Balance	FY2025		Ending Balance	Cumulative Balance
		Contributions	Projects		
Police	\$941,655	\$895,783	\$764,545	\$131,238	\$1,072,893
Fire	\$160,321	\$361,003	\$263,500	\$97,503	\$257,824
Information Technology	\$362,048	\$314,061	\$320,000	(\$5,940)	\$356,109
Total	\$1,464,024	\$1,570,846	\$1,348,045	\$222,801	\$1,686,825

Police Accrual Components			Unit Cost	Units	Replacement Cost	Lifespan (years)	FY2025 Contribution	FY2025 Projects
1	Automated External Defibrillators (AEDs)		\$2,250	80	\$180,000	10	\$18,000	\$22,500

Vehicle Replacement Accrual (Fund 350)

The Vehicle Replacement Accrual sets aside funds for the replacement of existing vehicles. From fire trucks to police patrol vehicles to trucks driven by inspectors, the City provides the resources necessary for the staff to provide services. The 2025 Budget sets aside almost \$1.5M for vehicle replacements adjusting the replacement value to current replacement costs. By design, the expenditures in the Vehicle Replacement Accrual do not equal the total or replacements each year as the fund is designed to build up for the larger expenditures by spreading the cost out over the years leading up to the expenditure for a major replacement such as a fire engine.

Of note, the cost of patrol vehicles has risen faster than inflation for the past several years which has caused a negative ending and cumulative balance within the police department line of the Vehicle Replacement Accrual. The proposed contribution for FY2025 has been adjusted upwards to the extent revenues allowed and will continue to be adjusted upwards for the next several years until the fund balance is again aligned with the replacement schedule for the vehicles.

Vehicle Replacements	Beginning Balance	FY2025		Ending Balance	Cumulative Balance
		Contributions	Projects		
Police Vehicles	\$161,183	\$1,469,990	\$1,022,000	\$447,990	\$609,173
Fire Apparatus / Vehicles	\$533,485	\$594,010	\$0	\$594,010	\$1,127,495
Other City Vehicles	\$172,188	\$100,664	\$0	\$100,664	\$272,852
Total	\$866,856	\$2,164,664	\$1,022,000	\$1,142,664	\$2,009,520

Summary of Vehicle Replacement Requests

	Requested	Funded	Scheduled	Replacements
1 Police: 14 Vehicles → 14 Vehicles	\$1,022,000	\$1,022,000	14 vehicles	14 vehicles
	\$1,022,000	\$1,022,000		

Vehicle Replacement Projects Described

1 Police: 14 Vehicles → 14 Vehicles	Funded: \$1,022,000
Requested By: Police Department	Request: \$1,022,000
In 2016, the City created a vehicle replacement schedule that anticipates replacing 14 vehicles in FY 2025 to gradually refresh the fleet. For FY2025, the Police Department is requesting to replace 14 vehicles. The 14 requested replacements are based on elevated maintenance costs, high mileage, and intense use requirements. The replacements will likely be the 14 vehicles that are between seven and eleven years old but the final vehicle replacement assessment will be made in the fall based on funding awarded and double-checking the mileage, maintenance, and any issues that arise between Budget adoption and the placement of the orders. The Adopted \$1,022,000 of funding would provide for the replacement of 14 vehicles.	

Parks Bond (Fund 310)

In November 2016, voters in Johns Creek approved the issuance of a \$40M bond for recreation and park improvements. The bonds were issued in the Spring of 2017.

Annually the Council has received a Parks Bond implementation presentation at a Work Session in late January with a review of projects by park as well as the accounting for expenditures on each project. As the revenues have all been received and all revenues have been spent or encumbered, no Council action for additional appropriation is requested as part of the FY2025 Budget. The fund will remain active until either the projects are completed or the funds are exhausted.

Existing Park	Improvement Projects	Completed
Autrey Mill	Farm Museum Renovation	September 2018
Autrey Mill	Forest Management Study	October 2018
Autrey Mill	Bus Turnaround and Pervious Parking Lot	January 2019
Autrey Mill	Relocation of Smokehouse	January 2019
Autrey Mill	Program Barn Bathroom Addition	April 2021
Autrey Mill	Restroom and Pavilion Addition	May 2022
Newtown	Soccer and Lacrosse Synthetic Turf	October 2017
Newtown	Playground Sidewalk Connection	July 2019
Newtown	Bocce Court Expansion	August 2019
Newtown	Perimeter Trail Loop Connection	September 2021
Ocee	Pavilion Near the Tennis Courts	May 2021
Ocee	Soft Surface Trail	October 2021
Shakerag	Track Field Synthetic Turf	December 2017
Shakerag	Tot Lot Playground	September 2019
Shakerag	Fishing Pier	March 2020
Shakerag	Wildlife Observation Deck	February 2020
Shakerag	Cricket Pitch and Batting Cages	November 2020
Shakerag	Pavilion at Field #3	December 2021

New Parks and Park Connections	Completed
Morton Road Park	November 2020
State Bridge Park	May 2021
Bell-Boles Park	October 2021
Land Acquisition for Cauley Creek Park	May 2021
Cauley Creek Park	June 2023
Rogers Bridge Pedestrian Bridge (Cauley Creek Park to Rogers Park)	July 2023

On-Going Projects	Current Stage
Creekside Park - in Town Center (behind City Hall)	Construction
Chattahoochee River Greenway (Abbotts Bridge Road to Cauley Creek Park)	Engineering

TSPLOST I (Fund 335)

The TSPLOST (Transportation Special Purpose Local Option Sales Tax) was approved by Johns Creek voters in November 2016. The three-quarters of a penny sales tax was implemented across Fulton County outside the City of Atlanta from April 1, 2017 - March 31, 2022. As voters subsequently approved a TSPLOST in November 2021 (or TSPLOST II), the TSPLOST approved in 2016 is also referred to as TSPLOST I.

Annually Council receives a 'State of the Program' overall implementation presentation at a Work Session in late January with both programmatic updates (as to which projects are in which stages) as well as accounting for expenditures on each project. As the revenue collection period is over and the revenues have all been spent or encumbered, no Council action for additional appropriation is requested as part of the FY2025 Budget. The fund will remain active until either the projects are completed or the funds are exhausted.

TSPLOST I funded projects are listed below by current stage.

Projects Completed	Ribbon Cutting
Jones Bridge Road at Waters Road	May 2020
Bell Road at McGinnis Ferry Road	July 2020
State Bridge Road Widening (Camden Way to the River)	November 2020
Bell Road at Medlock Bridge Road	March 2021
Medlock Bridge Road at State Bridge Road (Interim)	July 2021
Bell Road at Rogers Circle South Roundabout	September 2021
Bell Road at Cauley Creek Park Roundabout	March 2022
Bell Road Bridge over Cauley Creek Tributary	January 2023
Haynes Bridge Road at Old Alabama Road	December 2023
Jones Bridge Road Multi-Modal	March 2024
Medlock Bridge Road at Johns Creek Parkway	March 2024
Barnwell Road at Holcomb Bridge Road	April 2024
Medlock Bridge Road at Skyway, Abbotts, and Bell	June 2024

Projects in Construction	Groundbreaking
Jones Bridge (Waters Road to State Bridge Road)	May 2023
Jones Bridge Road at Douglas Road	June 2024
Medlock Bridge Trail (Creekside Park Trail)	August 2024
McGinnis Ferry Road (Sargent Road to Douglas Road)	Bids Expected Fall 2024

Projects in Engineering Stage	Last Council Action
Medlock Bridge Road at McGinnis Ferry Road	November 2022
Medlock Bridge Road at State Bridge Road	November 2020

TSPLOST II (Fund 336)

Voters approved a continuation of TSPLOST or TSPLOST II as part of the November 2021 election. The adopted budget list for Johns Creek includes \$6.5M for bridges, \$14.2M for traffic congestion relief, \$3.5M for landscape / streetscape improvements, \$16.2M for operations and safety projects and \$16.5M for pedestrian/bike improvements. This separate fund has been established for TSPLOST II (Fund 336) to budget the projects in the categories approved by Council.

Annually Council receives a 'State of the Program' overall implementation presentation at a Work Session in late January with both programmatic updates (as to which projects are in which stages) as well as accounting for expenditures on each project.

Debt Funds

The City has three debts: (1) City Hall Certificate of Participation issuance, (2) Resurfacing Loan from Georgia Tollway Infrastructure Bank, and (3) Parks General Obligation Bond issuance. The first two are managed out of Fund 400 (Debt Service Fund) and the Parks Bond Debt is distinctly managed out of Fund 410 (Parks Bond Debt Service).

In accordance with the City's Debt Management Policy, as part of the budget preparation, each debt is reviewed and considered for potential early repayment. Of the three debts, two have not yet reached the point when they can be considered to be retired early. The City Hall COPS issuance is callable at par on September 1, 2027. The Parks Bond (for bonds maturing on April 1, 2028 or later) is callable on or after April 1, 2027. The GTIB loan for resurfacing can be prepaid in whole or in part at any time without premium or penalty according to the terms of the Promissory Note. The Council chose to pay down an extra portion of the GTIB loan principal at the close of FY2023. The FY2025 Proposed Budget anticipates paying the \$273,717 of principal and interest that are due in FY2025.

Planned Capital Projects for FY2025 (October 1, 2024 - September 30, 2025)

Summary of Requests		Total Est. Cost	FY2025 Funding Request
Transportation - Pedestrian/Bike Improvements	Medlock Bridge Trail West (Bobby Jones to Old Alabama Road)	1,200,000	150,000
Transportation - Pedestrian/Bike Improvements	Medlock Bridge Trail East (Chattahoochee River to Old Alabama Road)	1,450,000	200,000
Transportation - Bridges	New Bridge with sidewalk and trail on Old Alabama Road over Johns Creek	1,000,000	1,000,000
Transportation - Bridges	New Bridge with sidewalk and trail on Old Alabama Road over Sal's Creek	1,000,000	1,000,000
Transportation - Traffic Congestion Relief	Widen McGinnis Ferry Road from two lanes to four lanes from Douglas to Sargent Road	8,900,000	8,900,000
Transportation - Traffic Congestion Relief	Improve traffic capacity of Jones Bridge Road at the intersection of Sargent Road and the intersection of Douglas Road.	4,000,000	4,000,000
Transportation - Traffic Congestion Relief	Improve traffic capacity of Medlock Bridge Road at intersection with McGinnis Ferry Road.	2,000,000	2,000,000
Transportation - Traffic Congestion Relief	Improve traffic capacity of Medlock Bridge Road at intersection with State Bridge Road.	500,000	500,000
Transportation - Traffic Congestion Relief	Improve intersection of Lakefield Drive at Johns Creek Parkway.	2,000,000	2,000,000
Transportation - Landscape/Streetscape	Streetscape - Lakefield Drive as Main Street in Town Center.	1,000,000	1,000,000
Transportation - Operations and Safety	Improve intersection of Barnwell Road at Niblick Drive by adding left turn lane.	2,000,000	2,000,000
Transportation - Operations and Safety	Make operational improvements to intersections along Nesbit Ferry Road.	1,000,000	1,000,000
Transportation - Operations and Safety	Improve intersection of Johns Creek Parkway at East Johns Crossing.	2,000,000	2,000,000
Transportation - Pedestrian/Bike Improvements	Provide trail on Barnwell Road from Niblick Drive to Rivermont Parkway.	3,500,000	3,500,000
Transportation - Pedestrian/Bike Improvements	Provide trail on Barnwell Road from Rivermont Parkway to North Peak Drive.	3,500,000	3,500,000
Transportation - Pedestrian/Bike Improvements	Build a pedestrian bridge with sidewalk and trail on Buice Road over Johns Creek.	3,250,000	3,250,000
Transportation - Pedestrian/Bike Improvements	Provide pedestrian underpasses from the west side of Medlock Bridge Road, near the Hearthside senior facility, to the new "City Park" on the east side of the roadway.	6,000,000	6,000,000
		\$44,300,000	\$42,000,000

Detailed Project Descriptions

Medlock Bridge Trail West (Bobby Jones to Old Alabama Road)	FY2025 Funding Request	\$150,000
Category Transportation - Pedestrian/Bike Improvements	Total Estimated Cost:	\$1,200,000
Detailed Project Description: The City adopted a Sidewalk Policy and subsequent matrix to identify gaps on the sidewalk/trail network across this City. The goal is to construct a safe sidewalk along one side of each main road throughout the City. This project ranks the highest as it constructs the first Trail along Medlock Bridge south of Old Alabama Road, is along a Major Arterial and is close to schools, parks and activity centers. The City adopted a Sidewalk Policy and subsequent matrix to identify gaps on the sidewalk/trail network across this City. The goal is to construct a safe sidewalk along one side of each main road throughout the City. This project ranks the highest as it constructs the first Trail along Medlock Bridge south of Old Alabama Road, is along a Major Arterial and is close to schools, parks and activity centers.		
Medlock Bridge Trail East (Chattahoochee River to Old Alabama Road)	FY2025 Funding Request	\$200,000
Category Transportation - Pedestrian/Bike Improvements	Total Estimated Cost:	\$1,450,000
Detailed Project Description: This project will add a 10' multi-use trail on the east side of Medlock Bridge Road from the Chattahoochee River to the Bobby Jones signal at the entrance to the Atlanta Athletic Club. This trail would connect south to Peachtree Corners and the National Park area located on the south side of the river. In conjunction with the west side trail it will complete the connection to the existing trail at Perimeter Church and is next in the Sidewalk Priority Matrix. The City adopted a Sidewalk Policy and subsequent matrix to identify gaps on the sidewalk/trail network across this City. The goal is to construct a safe sidewalk along one side of each main road throughout the City. This project ranks second highest as it constructs the first Trail along Medlock Bridge south of Bobby Jones, is along a Major Arterial and is close to schools, parks and activity centers.		
New Bridge with sidewalk and trail on Old Alabama Road over Johns Creek	FY2025 Funding Request	\$1,000,000
Category Transportation - Bridges	Total Estimated Cost:	\$1,000,000
New Bridge with sidewalk and trail on Old Alabama Road over Sal's Creek	FY2025 Funding Request	\$1,000,000
Category Transportation - Bridges	Total Estimated Cost:	\$1,000,000
Widen McGinnis Ferry Road from two lanes to four lanes from Douglas to Sargent Road	FY2025 Funding Request	\$8,900,000
Category Transportation - Traffic Congestion Relief	Total Estimated Cost:	\$8,900,000
Improve traffic capacity of Jones Bridge Road at the intersection of Sargent Road and the intersection of Douglas Road.	FY2025 Funding Request	\$4,000,000
Category Transportation - Traffic Congestion Relief	Total Estimated Cost:	\$4,000,000
Improve traffic capacity of Medlock Bridge Road at intersection with McGinnis Ferry Road.	FY2025 Funding Request	\$2,000,000
Category Transportation - Traffic Congestion Relief	Total Estimated Cost:	\$2,000,000
Improve traffic capacity of Medlock Bridge Road at intersection with State Bridge Road.	FY2025 Funding Request	\$500,000
Category Transportation - Traffic Congestion Relief	Total Estimated Cost:	\$500,000
Improve intersection of Lakefield Drive at Johns Creek Parkway.	FY2025 Funding Request	\$2,000,000
Category Transportation - Traffic Congestion Relief	Total Estimated Cost:	\$2,000,000
Streetscape - Lakefield Drive as Main Street in Town Center.	FY2025 Funding Request	\$1,000,000
Category Transportation - Operations and Safety	Total Estimated Cost:	\$1,000,000
Improve intersection of Barnwell Road at Niblick Drive by adding left turn lane.	FY2025 Funding Request	\$2,000,000
Category Transportation - Operations and Safety	Total Estimated Cost:	\$2,000,000
Make operational improvements to intersections along Nesbit Ferry Road.	FY2025 Funding Request	\$1,000,000
Category Transportation - Pedestrian/Bike Improvements	Total Estimated Cost:	\$1,000,000
Improve intersection of Johns Creek Parkway at East Johns Crossing.	FY2025 Funding Request	\$2,000,000
Category Transportation - Pedestrian/Bike Improvements	Total Estimated Cost:	\$2,000,000
Provide trail on Barnwell Road from Niblick Drive to Rivermont Parkway.	FY2025 Funding Request	\$3,500,000
Category Transportation - Pedestrian/Bike Improvements	Total Estimated Cost:	\$3,500,000

Provide trail on Barnwell Road from Rivermont Parkway to North Peak Drive.	FY2025 Funding Request	\$3,500,000
Category Transportation - Pedestrian/Bike Improvements	Total Estimated Cost:	\$3,500,000
Build a pedestrian bridge with sidewalk and trail on Buice Road over Johns Creek.	FY2025 Funding Request	\$3,250,000
Category Transportation - Pedestrian/Bike Improvements	Total Estimated Cost:	\$3,250,000
Provide pedestrian underpasses from the west side of Medlock Bridge Road, near the Hearthside senior facility, to the new "City Park" on the east side of the roadway.	FY2025 Funding Request	\$6,000,000
Category Transportation - Pedestrian/Bike Improvements	Total Estimated Cost:	\$6,000,000

Planned Capital Projects for FY2025 (October 1, 2024 - September 30, 2025)

Summary of Requests			Total Est. Cost	FY2025 Funding Request
1	Other	Fire Station #63/Police Substation	10,800,000	8,500,000
3	Other	Arts Facility	30,000,000	6,000,000
4	Other	New Police Vehicles (5 qty)	400,000	400,000
			\$41,200,000	\$14,900,000

Detailed Project Descriptions

1	Fire Station #63/Police Substation	FY2025 Funding Request	\$8,500,000
	Category Other	Total Estimated Cost:	\$10,800,000
	Detailed Project Description: Construction of a new combined Fire and Police station to replace FS #63 and rental space for Police Substation. Project Justification a.Structural Concerns: Foundation, concrete walls, roof b.Plumbing issues and failing pipes c.Age & Design d.Previously remediated mold/Contained asbestos e.Environmental Inefficiencies f.JCPD requested a new south precinct. Currently they rent. g.More secure setting to operate a Police Substation. h.Repair costs are high and continue to increase i.This station desperately needs to be modernized		

3 Arts Facility		FY2025 Funding Request	\$6,000,000
	Category Other	Total Estimated Cost:	\$30,000,000
<p>Detailed Project Description: A performing arts center for the City of Johns Creek would be a modern, multi-functional venue designed to host a variety of performances, from local theater productions and concerts to dance recitals and community events. It would likely feature state-of-the-art sound and lighting systems, a spacious main auditorium with comfortable seating, and additional facilities like rehearsal rooms, art galleries, and community meeting spaces to support and enhance the city's cultural and artistic landscape.</p> <p>Formula: C= capital Cost A = size of facility B = construction cost</p> <ul style="list-style-type: none"> • C = A X B • Capital cost = (size of facility) X (construction cost) • Capital cost = (50,000 square feet) X (\$600 per square foot) <p>Assumptions</p> <p>This formula assumes that the City will build the new arts center on already owned land, or upon land that will not require an acquisition cost.</p> <p>This formula also assumes that the 50,000 square-foot facility will not feature a banquet hall/ conference center.</p> <p>This formula assumes that the 50,000 square-foot venue will feature a 5,000 square foot flexible venue space that can be configured for small performances or catered events (400-person capacity)</p> <ul style="list-style-type: none"> * a 1,300 square foot rehearsal space * a 1,070-seat performance space that features: * 3 tiers of seating * a full orchestra pit * a fly loft * green rooms * dressing rooms 			

4 New Police Vehicles (5 qty)		FY2025 Funding Request	\$400,000
	Category Other	Total Estimated Cost:	\$400,000
<p>Detailed Project Description: The department will propose to purchase five (5) new police vehicles for five (5) new full-time Officer positions recommended in FY2025. Our new Strategic Multi-Year plan for FY2024 – FY2028 focuses on data, challenges impacting manpower, and other minimum personnel requirements essential for the Johns Creek Police Department to sustain its present level of service. From our proposal, we identified the following areas of importance which have presently increased our workload and will do so in the future:</p> <p>Population</p> <p>Calls for service</p> <p>Criminal investigations</p> <p>Community engagement programs</p> <p>Annual required career development training</p> <p>City-sponsored events</p> <p>Future opening of Cauley Creek</p> <p>Creekside Park / City Center / Medley</p> <p>With this commitment and demand for service, there is an identified need to purchase five (5) new Police Vehicles for the five (5) requested police officer positions for FY2025. These new vehicles will be fully equipped police units assigned to personnel on patrol who provide around the clock public safety service in an on-going effort to improve the quality of life for the citizens of Johns Creek</p>			

Planned Capital Projects for FY2025 (October 1, 2024 - September 30, 2025)

Summary of Requests			Total	FY2025
			Est. Cost	Funding Request
1	Parks	Cauley Creek - Additional Overflow Parking Lot for Courts Complex	300,000	300,000
			\$300,000	\$300,000

Detailed Project Descriptions

1	Cauley Creek - Additional Overflow Parking Lot for Courts Complex	FY2025 Funding Request	\$300,000
	<i>Category</i> Parks	<i>Total Estimated Cost:</i>	<i>\$300,000</i>
Detailed Project Description: Construct new overflow parking lot to add 80-100 spaces and connecting sidewalks adjacent to the courts complex at Cauley Creek Park. A conceptual plan is below and the parking may be gravel or paved pending final construction costs. Cauley Creek Park was opened Summer of 2023. The popularity and use of the courts is so high that the parking demand exceeds the original parking constructed in phase 1 construction of Cauley Creek. In times of peak use, vehicles park on the sides of the interior park roadway creating potential safety issues and damaging park grounds. A new overflow parking lot across the street has been conceptually planned and cost projected.			

Planned Capital Projects for Future Years (October 1, 2025 - September 30, 2029)

Summary of Funding Requests FY2026

Category	Sub-Category	Project Name	Funding Request
Transportation	Traffic Congestion Relief	Upgrade traffic signalization system to better synchronize traffic signals	500,000
Transportation	Traffic Congestion Relief	Improve traffic capacity of Medlock Bridge Road at intersection with State Bridge Road.	2,500,000
Transportation	Landscape/Streetscape	Streetscape - Lakefield Drive as Main Street in Town Center.	1,000,000
Transportation	Operations and Safety	Make operational improvements to intersections along Nesbit Ferry Road.	4,000,000
Transportation	Pedestrian/Bike Improvements	Provide pedestrian underpasses from the west side of Medlock Bridge Road, near the Hearthside senior facility, to the new "City Park" on the east side of the roadway.	3,250,000
